CASE ACTIVITY

- 👉 TANF cases receiving payment in March 2006 changed -3% statewide compared to March 2005 from 33,770 in March 2005 to about 32,857 in March 2006. TANF-UP payment cases statewide changed -2% comparing March 2005 to March 2006 - from 1,474 in March 2005 to about 1,446 in March 2006.
- 👉 Since June 1995, the number of TANF payment cases declined 53% statewide, and TANF-UP payment cases increased 267%,
- 👉 Of the 2,743 TANF closed cases, 1,071 were VIEW cases when closed, of which 776 were closed with employment. Of the 193 TANF-UP closed cases, 96 were VIEW cases when closed, of which 74 were closed with employment.

APPLICATION ACTIVITY

- 👉 Total TANF and TANF-UP applications received were 4,747, four percent fewer than the 4,939 in March 2005. The timeliness of processing in March 2006 was 95%. In March 2005, timeliness was 93%. The goal is 97%.
- 👉 In March 2006, the percent of denied applications compared to approved and denied was 25%. In March 2005, it was 24%.

DIVERSION FROM TANF

- 👉 In March 2006, 50 different localities had 164 diversion cases. In February, 54 localities had 147 diversion cases. And in March 2005 there were 178 diversion cases
- 👉 Diversion cases represented about 7.6% of approved applications in March 2006 and 6.5% in March 2005.

CHILD SUPPORT ENFORCEMENT

- 👉 In March 2006, the Division of Child Support Enforcement collected child support on behalf of 18,146 TANF cases.
- 👉 In March 2006, a total of \$6,673,147 was collected on behalf of TANF cases.
- 👉 During March 2006, 327 TANF children had paternity established.

VIEW ENROLLMENT and WORK ACTIVITY

- ☛ Statewide timeliness of enrollment was 96%. In March 2005 it was 94%. The goal is 97%.
- ☛ The percent of enrollees that were in a work activity at the end of March was 66% compared to 61% at the end of March 2005.
- ☛ The three month job retention percent for the latest year was 72%. A year ago it was 71%. The statewide target is 75%.
- ☛ The statewide average monthly earnings for employed enrollees at the end of March 2006 were \$1,020. At the end of March 2005 they were \$965.

Below is an extract of the information on pages 34-36 of the report. It lists the top three localities in each economic development district (EDD) with respect to year to date information. The effect of varying economic conditions across the state is made clear by looking at the overall rankings of the top three in each EDD. However, some localities do fare better than others. It is sometimes difficult to compare very small localities with larger ones, e.g. Highland.

Rank Within EDD	EDD	FIPS Code	Locality	Percent Employed	Rank	Average Wage	Rank	Percent Employed at 3 Months	Rank	Overall Rank

STATUS of WAITING LIST for ENROLLMENT.

This shows the number on the waiting list for enrollment for over 30 days, as of the end of March (point-in-time data). It includes the average number of days over 30 for those who were past due for assessment. Some referrals to the waiting list are made in error, and there may be a lag time in correcting them. This is the reason for the sometimes remarkably high number of average days.

EDD7 (Culpeper Region) -	2 persons	7 days	(129 mo. implementation)
EDD9 (Lynchburg Region) -	1 person	126 days	(126 mo. implementation)
EDD2 (Bristol/Galax Region) -	0 persons	0 days	(123 mo. implementation)
EDD6 (No. Virginia Region) -	3 persons	7 days	(120 mo. implementation)
EDD10 (Danville Region) -	12 persons	16 days	(117 mo. implementation)
EDD5 (Winchester Region) -	1 person	21 days	(114 mo. implementation)
EDD18 (Eastern Shore Region) -	0 persons	0 days	(114 mo. implementation)
EDD16 (Petersburg Region) -	7 persons	23 days	(111 mo. implementation)
EDD12 (Richmond Region) -	43 persons	70 days	(108 mo. implementation)
EDD4 (Harrisonburg Region) -	0 persons	0 days	(105 mo. implementation)
EDD8 (Charlottesville Region) -	0 persons	0 days	(105 mo. implementation)
EDD13 (Fredericksburg Region) -	5 persons	48 days	(105 mo. implementation)
EDD14 (Northern Neck Region) -	16 persons	76 days	(105 mo. implementation)
EDD1 (Southwest Region) -	3 persons	24 days	(102 mo. implementation)
EDD3 (Roanoke Region) -	8 persons	35 days	(102 mo. implementation)
EDD11 (Southside Region) -	25 persons	62 days	(102 mo. implementation)
EDD15 (Peninsula Region) -	2 persons	428 days	(102 mo. implementation)
EDD17 (Tidewater Region) -	5 persons	23 days	(102 mo. implementation)

TANF

	<i>Total Statewide</i>				
TANF Case Activity	Mar-06	Mar-05	Change from Mar-05	Jun-95	Change from Jun-95

The rankings are displayed to provide some indication of relative standing. They are not intended to represent scaled performance measures. Ties were resolved by carrying out the numbers to greater detail than displayed, and then if ties remained, FIPS code order was used. The calculation of scores was begun in May 1999 to make the determination of a combined rank more equitable. See the bottom of the endnotes on page 50 for an explanation of how the scores are calculated.

The rankings are displayed to provide some indication of relative standing. They are not intended to represent scaled performance measures. Ties were resolved by carrying out the numbers to greater detail than displayed, and then if ties remained, FIPS code order was used. The calculation of scores is done to make the determination of a combined rank more equitable. See the bottom of the endnotes on page 50 for an explanation of how the scores are calculated.

State Summary is on page 45

Definitions of Selected Terms Contained in Report

Average Monthly Earnings. This is the average monthly earnings of the unsubsidized jobs that participants obtained. The value is calculated by multiplying the hourly wage by the weekly hours worked by 4.3 average weeks per month. For the cumulative figures the initial wage and initial hours are used. For the current figures, the initial wage and most current hours are used, except for the November 2001 report which used initial hours. Earlier than June 1999, wage changes that were entered overwrote the initial wage, so prior to that date, the cumulative figures used the initial hours and the last wage entered.

Average Wage. The average of the wages reported for each occurrence of unsubsidized employment. After June 1999 the wage is the wage at hiring, that is, the initial wage. Prior to June 1999, that wage may have been updated if changed during employment.

Cases Closed with Employment. These are TANF or TANF-UP cases that are closed with an indication in the data base of employment at the date of closure. It does not mean that the case necessarily closed because of employment. For example, a TANF case may have an indication of closing at the client's request, along with indication of existing employment in VIEW. That case is counted as closed with employment.

Community Work Experience. Unduplicated count by locality of VIEW participants who were assigned to work for their benefits at public or non-profit organizations.

EDD. This stands for Economic Development District. EDDs were developed during the administration of Governor Allen. They generally are not longer in use. This report continues to refer to them because VIEW was phased in by EDD and their use provides consistency over time.

Enrolled. Unduplicated number by locality of TANF recipients who were interviewed, received an individual assessment, signed the Agreement of Personal Responsibility, and enrolled in the VIEW program. Because the count is by locality, a recipient may be counted once in more than one locality. The fiscal year to date numbers include those who were enrolled at the beginning of the fiscal year as well as those enrolled during the year. There are clients enrolled in VIEW who have had their TANF case closed because VIEW policy requires that the enrollment remain open for job follow-up after employment. At the end of a month, normally about twenty percent of those enrolled in VIEW are not receiving TANF.

Full Employment Component. Unduplicated count by locality of VIEW participants who obtained subsidized employment with a private sector employer. The recipient's TANF and Food Stamp benefits are used to pay the employer a subsidy to offset the employer's cost of training the recipient for the job. In 2005, changes were made to simplify this program. Usage may increase.

Full Time Jobs. Number of jobs obtained at 30 hours a week or greater.

Number of Cumulative Jobs. Total number of unsubsidized jobs obtained by participants. A participant may have one or more jobs during enrollment; this is one or more occurrences of employment involving one participant. In earlier reports, this item was called Entered Employment.

On the Job Training. Unduplicated count by locality of VIEW participants who were assigned to obtain direct on the job training with a specific employer.

Participants Assigned to Inactive. Inactive is a status assigned to participants who cannot participate in the VIEW program for reasons other than being exempt. Examples are unavailability of child care, unavailability of transportation, and mental or medical problems that make participation impractical. Inactive participants are due to be reviewed each month. While in inactive status, the 24 month time limit for TANF benefits is suspended.

continued on next page

Participants Employed. Total number of participants by locality who ever obtained an unsubsidized job, either full time or part time. If employed more than one time, they are still only counted once, but may be counted in more than one locality. Also, these participants may have left their job and not gotten another one. For the year to date numbers, those employed at the beginning of the fiscal year are included as well as those who first became employed in the fiscal year.

Participants in a Work Activity. Unduplicated count by locality of persons who have been in any of the work activity components; they are employment, full employment, community work experience, and on the job training. For example, a person who was in community work experience and then employed would be counted only once. For the year to date numbers, those in a work activity at the beginning of the fiscal year are included as well as those who first entered a work activity in the fiscal year. It should be noted that for federal reporting, clients in job search for a limited time are considered to be in a work activity. However, job search is not counted as a work activity for this report.

Part Time Jobs. Number of jobs obtained with fewer than 30 weekly hours.

Referred. Unduplicated number of TANF recipients by locality who were determined eligible for VIEW and had their names referred to the automated VIEW list for participation.

Relationship Between TANF and VIEW Participation. On the chart at page 5a, the column heading "Total Adults in the Case" includes adults who are not considered to be part of the assistance unit. For example, a mother receiving SSI may be in the case, but because she receives SSI is not considered eligible for TANF and thus is not part of the assistance unit. Persons such as she who are not in the assistance unit are not eligible to participate in VIEW. About 18% of the adults belong to this not in the assistance unit category.

Five Months Employment. This represents the percent of all participants that were employed five months after their first employment. Participants who are employed in any job five months after their first employment are counted in this measure.

Three Months Employment. This represents the percent of all participants that were employed three months after their first employment. Participants who are employed in any job three months after their first employment are counted in this measure. For year to date percents, the calculations are based on the first employment that began one year before the end of the report month. That employment may not have been the first ever for the participant. The year to date percents were calculated differently in reports before September 2004. Also for year to date percents, transferred cases were not counted for months after the January 2002 report.

TANF / TANF-UP Payment Cases. Up to November 2003 these counts were taken from a monthly report with no adjustment. After that, the monthly counts included some cases that were being paid because child support payments had been received and were being passed on. These counts were adjusted to mostly eliminate those additional cases. Further adjustment may be appropriate. It should also be noted that the counts include both strictly TANF cases and MOE cases. With the end of waiver provisions in July 2003, a substantial part of the caseload was placed in a state program and funded with MOE funds. This change in July 2003 was a change in funding, not a change in eligibility requirements or case payment amounts.

General Statement About Accuracy. The report is based on an extract from the Employment Services automated system. The extract is normally made the night of the first work day after the end of the report month. Data that staff of local social services agencies enter into the automated system after the time of the extract are not included in the report, even though the activity reflected actually occurred in the report month. However, that data, and the activity reflected, are included in the reports for subsequent months. Further, because the data are entered by staff in the 120 localities, the accuracy of the data in the data base is, of course, subject to inadvertent error.

¹ Applications are not necessarily acted upon in the month that they are received. Also, applications may be transferred from regular TANF to TANF-UP and vice versa as they are processed.

² These TANF cases paid counts are prior to possible adjustment. See definition of payment cases. Note that a VIEW case may remain open for job follow-up after the corresponding TANF case closes.

⁴ A case may be open in more than one locality during the time period.

⁵ Prior to June 1999, when individuals were transferred from one locality to another, their history was transferred as well. This may have an effect on a locality's cumulative VIEW statistics.

⁶ Minimum wage is \$5.15. The average wage includes full and part time, unless otherwise indicated. See the definition of average wage on page 48.

⁷ Includes full and part time earnings.

⁸ This represents the percent of all participants that were first employed three months or more before the end of the report month and who were employed three months after the date of that employment. Employment may or may not have been continuous. See definition on page 49 for the revised method of calculating the year to date percentages.

⁹ This represents the percent of all participants that were first employed five months or more before the end of the report month and who were employed five months after the date of that employment. Employment may or may not have been continuous.

¹⁰ Number includes TANF-UP and represents cases carried over to the next month. Note that a VIEW case may remain open for job follow-up after the corresponding TANF case closes. Normally on average, about 20 percent of VIEW cases have had their TANF case closed.

¹¹ Enrollment is timely if done within 30 days of referral.

¹² Placement in a work activity is timely if a participant is placed by the 95th day after referral.

¹⁴ As of early April 3, 2006. Some referrals to the waiting list are not appropriate, and there may be considerable lag time in correcting them..

This report may be available on the Department of Social Services web site, www.dss.state.va.us. On the site, go to the Site Map and select Temporary Assistance to Needy Families (TANF) under "Programs & Services for Financial Assistance." Then scroll to the bottom of the TANF page.

The scores in the VIEW Rankings are determined by placing a locality on a scale of zero to ten in the same relative position as its place in the difference between the high and low of the measure in question. This converts all measures to a similar scale and provides a more equitable way to combine the ratings in each measure to determine a combined rank. (Questions, please call 804 726-7618.)
